

ADOPTION

Enterprises often fail to move beyond the POC stage of cloud adoption. This happens primarily due to lack of experience and expertise in EUC cloud implementations in either the internal IT teams or the Managed Service Partner (MSP). This manifests itself in an inability to properly identify and implement different use cases, inability to integrate with applications and peripherals and an inability to deliver a smooth, trouble free transition experience to end users, leading to resistance to adoption.

Anunta's "VDI/DaaS Adoption Package" helps enterprises, who have taken the first steps towards implementing VDI/DaaS, define a full adoption plan and then take complete ownership of the EUC transformation from discovery and migration to complete stabilization of the environment before handing it over as a steady state operations to the customer's IT team/existing MSP in a time bound manner.

Delivering Unmatched End-User Experience

Managing **80,000+ endpoints** and **120,000+ users** globally and across different virtualization platforms.

Delivering the lowest incident-to-user ratios in the industry at **0.3** compared to industry average of **0.8 - 1.2*** incidents per user per month.

Highly secure **24x7x365** Enterprise Nerve Center monitoring and managing IT infrastructure to deliver superior end-user experience.

*Gartner report 'IT Key Metrics Data 2017'

Outcome and productivity oriented SLAs, along with flexible engagement (on-premise and cloud) and pricing (per user per month and per endpoint per month) models.

Proactive identification and resolution of **72%**** issues before the end-users are even aware of it resulting in improved end-user productivity.

Proprietary platform, EuVantage®, providing deep cross-domain visibility, automated isolation, actionable analytics and dramatically reduced resolution times.

**as of January 2019

Adoption Package

About Anunta

Anunta is a specialized cloud services company, focused on end-user experience management in enterprise environments. Anunta helps enterprises move to new generation End-User Computing (EUC) environments and has extensive experience in enabling customers to adopt EUC on cloud at large scale. Anunta has migrated 80,000+ endpoints across 120,000+ users in companies across industries including, banking and financial services, manufacturing, travel, media, aviation and IT.
